## Freedom of Foolishness

William J. Kiedatech Managing Editor

Americans have been bombarded for the past couple of years with a constant barrage of warning against the perils of monking. We have responded to these admonishments by puffing our way through 534 billion this year—an all-time high. Before and during the recent Fourth of July workend Americans were besoched to use a little care in diving. They were akeed through all modes to help offset the extra dangers of holds by table.
